1/1/97

Dear Sir / Madam,

I have been made aware of Queensland possibly adopting a bill of rights. It is very important to me that we have some rights protected, especially in more recent times as big governments erode away our freedoms. I am mainly referring to the new National Gun legislation & its harsh conditions including gun ownership. With self protection not considered as 'Genuine Reason' under this new legislation, a very substantial right of any Australian, not alone a Queenslanders has been stolen.

I am a mother of 2 small children & have never had to forward a submission of any kind before, but the importance of this issue has compelled me to do so. As a mother, I should have the right to protect myself & family by any means possible & if I happen to have a firearm for that purpose there should be no question by Authorities that's my submission regarding the possible adoption of a Queensland Bill of Rights is any decent law siding Adult citizen should have the right to own any firearm that is NOT of full automatic & function, for the purpose of self protection.

Yours sincerely
Sandra Andersen
