Mr. Research Director,
Legal, Constitutional & Administrative
Review Committee,
Parliament House,
Brisbane 4000.

Dear Sir,

I have been led to believe we
will possibly be adopting a "Queensland Bill
of Rights". I would like to forward the following
submission, regarding the right of self defence
(my decent law-abiding adult citizen should
~~have the right to legally own any firearm that~~
~~is not capable of full automatic function, for~~
the purpose of self defence. I feel that this is a
very important right for all Queenslanders,
choose which method is the most appropriate
for them to protect their family and
themselves.

Yours faithfully
G. M. & L. Andersen.
