

SUBJECT 4: ON THE PROPOEDTED INCLUSION OF 4 YEAR TERMS FOR
MEMBERS OF PARLIAMENT

This was rejected by referendum by the people of Queensland and Australia and should not be pursued any further no matter what the reasons because there is an obvious perception out there in the electorate that politicians are not to be trusted. The fear is, give them more time in office to do more damage, when you can vote them out of office in a shorter term should they prove to be unsatisfactory which is all of the time.
