To Whom It May Concern,

In light of the recent findings correctly justifying the innocence of the Logan City Councillors from two different courts, I am sending this email to express my disgust in our supposedly fair justice system at what the Councillors have endured.

It is beyond belief when councillors of the Logan City Council were unfairly dismissed when common sense should have prevailed. It was obvious that they were very concerned that the performance of the CEO at the time was terrible and that it would have serious future ramifications for the efficient operation of the Logan City Council. Unfortunately the ludicrous behaviour of the CCC under the chairmanship of Mr McSporran and its subsequent findings and consequences is totally incomprehensible and beggars belief. I must also point out the minister at the time, Mr Hinchcliffe, would also be responsible for the overall unjust decision.

Furthermore these foolish actions have cost myself and many other taxpayers an absolute fortune in present legal costs, and in future, many more costs with compensation etc. This money would have been better spent on hospitals, schools etc instead of destroying the reputations and careers of innocent councillors as well as the efficient operation of Logan City Council.

Importantly, my name is Garry Begley. [REDACTED]

Also this email of mine does not have to be confidential.

Regards
