To whom it may concern, I would just like to express my feelings of how I and many others believe strongly that CCC should be brought forward to courts and held responsible for wrongfully accusing the 7 councillors of fraud which I have since been advised that the evidence they had should of never reach court. Our councillors need to be heavily compensated for the defamation of the councillors characters and the destruction of their 7 life's that have been totally destroyed. Their integrity and respect was stripped from them and not to mention the depression, financial hardship, broken relationships, self worthy torment each of them went through everyday for 2 years with their life hanging on the edge wondering if everything they have work for all their lives will be taken away from them to spend years in jail all base on lies this was a strong reality check that could of been their ruin of life if the jurors could not see through the lies and deceit and in my opinion deception from the CCC. I have lost faith in the Justice system. The ones that are meant to protect us ended be the ones we need to be protected from. Keep in mind these 7 councillors gave their heart and soul looking after their community. Due to CCC poor judgement Logan lost the best treasurer, councillor and acting mayor that they ever had. People of our Logan community had a big lost also when they lost the best 7 councillors acting on their behalf. Shame on CCC. Trevina Schwarz was a Strong asset to Logan council she had the passion and heart for her community at Logan. I know Trevina Schwarz personally. Above everything else she has high standards with very high morals, Very loyal works with a astute professional manner. I am proud of her achievements in life. I was very upset to stand by unable to do anything to help and witness her despair, destruction and toll on her personal life, family and friends. Not one of those councillors deserve the treatment of being sack from their jobs, being disgrace on national tv. CCC you got it wrong you need to apologise on national tv and pay compensation on income lost over the 2 years, sufferings of depression due to false charges against them and fighting to claim some sort of normal life back. Kind regards Lorraine Soich [REDACTED]
