I have included my previous address as I lived in Logan for well over thirty years.

Regarding the shocking treatment of our former Councillors.

Between two councillors having given 40 years' experience, to a very hard job, to be treated like hardened criminals, is truly horrendous.

Are we competing with China!!!!

What the CCC did to our Councillors was the equivalent of seeing a truly loved family member dead on their doorsteps .All because of one person upset over not doing the job she was employed for .This was why she was on a 6 month trial .

I question how did this happen?

The CCC well and truly over stepped their mark , Mayors and Councillors are voted in from the general public ,hopefully well grounded people of our community. To help to stop businesses running amuck and to interact between the governments to spread taxes evenly as possible.

Truly Disgusted.
