

SUBMISSION TO PCCC. 26.07.2021

Regarding the 7 Logan City Councillors charged with fraud by the CCC Queensland

TO WHOM IT MAY CONCERN

We feel we must register our disgust at the way the seven councillors with over 30 years' service were publicly pillaroid and treated as criminals by the CCC Qld. These people lost all as soon as they were charged before being given a chance to prove their innocence and languished for two long years unable to gain employment as they had charges laid against them, homes and marriages put at risk and the fact that there is no recourse is a blot on the State of Queensland. The CCC QLD has been scurrilous in their actions and needs disbanding ASAP.

The other four councillors (whistleblowers) were unable to produce one shred of evidence and it is very obvious that the CCC QLD charged in without testing their evidence first. It's amazing that the other four councillors are still in office and have not had to face any consequences for their actions.

It is also shameful that there appears to be no recourse for good people maligned by the State of Queensland in this way. They need to be properly compensated as they lost two years salary as well as the humiliation they suffered by public perception that they were guilty and which is still going on. The head of the CCC shows no remorse for his actions and should be removed.

Yours sincerely

Bill Haggard [REDACTED]
