Mr John Krause Mp
Parliamentary Crime and Corruption Committee
Parliament House
George Street
Brisbane Qld 4000

Dear Mr Krause,

**Inquiry into the Crime and Corruption Commission's Investigation of the
former councillors of Logan City Council; and related matters**

We are proud Logan City citizens of 36 years. We have raised our 5 sons here, had businesses here and are founders of an award winning charity here.

We have been nothing short of appalled at the "on goings" in our city over the past 2 years.

We can't possibly understand why our democratically elected members were ever stood down in the first place. Surely we, the people, had the right to vote them out at the next election - isn't that at the core of democracy?

We, the people, lost the true leadership, history, intellectual property of some very passionate, community driven, genuine, authentic decent citizens.

Then, to find out that this dreadful fraud that was supposed to be committed, was just here-say and total fraud in itself, is beyond any comprehensible understanding for normal everyday people like us.

It is the hope of the citizens of Logan that we are able to hear the full disclosure of this disgusting injustice to us and the cause of this deformation of our city. There is no way that our former councillors and mayor can ever be compensated for this injustice but we do believe they are entitled to financial remuneration and yes it will be us the rate payer that is hit again.

We expect that the members of the Crime and Corruption Commission to face the full letter of the law because they swore to lead us with integrity and not just for some political game.

Page 2

We were once a city of amazing community spirit where everyone came together for the good of its citizens, now it feels like people are afraid to help each other or support organisations or groups for fear of doing “something wrong” It now feels like the people who made the accusations - the self-proclaimed whistle blowers are leading our city. How do we address that?

Mr Krause, we pray for wisdom for you and your committee as you lead this investigation. May truth and integrity prevail for the citizens of Logan.

Yours faithfully

Ron and Debbie Hill
Humble Logan Residents and Rate Payers
