Subject: Re : Transport and Other Legislation (Personalised Transport Reform) Amendment Bill 2017

To whom it may concern,

I totally disagree with this bill and strongly suggest removing the \$240 booked hire service licence, not increasing CTP costs for drivers, and removing the restrictions for ridesharing vehicles from driving in particular areas of the state.

I recently joined Uber and this involved paying for a Queensland Driver Authority licence , police checks , medical checks and more expensive taxi insurance, we have already paid out a lot of time , money and effort just to drive for uber we don't want or need this additional expense

After following all the regulations set out by the government to legally ride share and try earn a living it is unfair that this bill gets passed as we are trying our best to get by without have another licence fee added

Uber has been well received by the public and this will definitely affect signing up of new drivers and keeping existing ones

Kind Regards

John Johnston
