Subject: Uber charges

I work part time at a school. Finding another job (full-time) (possibly because of my age) is almost impossible. I have applied for jobs and still am.

This (Uber) was a good option as I could fit it in with my current job.

I do not waste money unnecessarily but need extra income to support my family. I am currently behind in my rates but working towards getting it paid.

I have met customers who have reached a similar age and cannot find employment. They want to try Uber to support their families also.

Many drivers will not be able to meet extra charges particularly if it is part time work, as it negates making anything. Ultimately we could end up earning less than \$12.00per hour.
