Subject: additional government fees annually

Dear Sir/ Madame,

I AM FERNANDO CRUZ AUSTRALIAN CITIZEN CURRENTLY RESIDING IN OAKEY QLD, UNEMPLOYED FOR ALMOST TWO YEARS . Being an UBER driver is not easy before we become authorized uber driver we gonna face a lot of expenses such as medical and driving authorisation plus a repairing to

Our vehicle's, and fuel in my experience on the very first week driving UBER is like game you need to across all challenges and obstacle before we earning points to collect passengers. Sometimes i accept a passenger from Highfield and im on the center of Toowoomba city I have no idea how far it is, just thnking they need my service i travelled 20 minutes from Toowoomba going to Highfield and my passenger destination is GEHAM ANOTHER 29 minutes to drive the worst is i travelled going back to Toowoomba without passenger and i earned only \$18 for more than an hour how if we gonna caught by the police for any kind of offense in my opinion collecting passengers for 10 hours is not enough for one mistake so I believe \$240 is too much or not applicable because we paying tax as well and super annuation for our future.

In addition we have more expenses in our home like waterbills,electricity, car registration, insurance, foods etc...how can we survive if you put another bills on our shoulder much bettet to stay at home and waiting allowances from the government so please dont put another heavy responsibility paying tax is enough. We have already a CTP INSURANCE in every motor vehicle's
