Subject: Transport and Other Legislation (Personalised Transport Reform) Amendment Bill 2017"

Hi

I think people who works at this government are truly stupid and greedy. Why not cancel the whole uber things instead of making it more difficult for us to make money which by the way very profitable for you anyway to begin with. Average out I am making money around \$18.00 per hour after my car cost with current bullshit and you want to make it even more expensive how stupid is that? Bunch a rich people force us to pay more. Kiss goodbye this uber business for me for sure. I am already making just on minimum wages and now even make less. I believe you have found an opportunity to make money from this new system and all you care to suck the blood out of all of us with your silly fees and more fees but allow Uber to take 25% fee from us.

Why don't you come and drive for one night and find out how much you actually earn before you impose new fees. But then again always one rule for you and one rule for the rest of us am I correct?

So far I have earned \$992.00 then you get a fee of 10% of \$99.00 so that leave me how much if you can count: \$893 taxable income which I have allocated my time from my family for 31:45:40 hours so how much that leaves me per hour: get your calculator; \$27.90 minus my car cost which is 23 cents per km and driven 1303 km so how much that is: \$299 my car cost so how much is left: \$593 and that makes \$18.50 per hour so would you get out of bed for this pay?

Kind regards
Farid Kazemy
