Hi there,

I'm writing because I'm concerned with the upcoming legislation changes around ridesharing. Many of my friends are drivers and the income they earn through platforms like Uber keeps them afloat when conventional employment simply wouldn't work. Some of these friends are students, who need work that is flexible. Some of them lost their employment and had to make the choice between ridesharing and Centerlink.

While I truly believe that government regulations are necessary to the ridesharing industry, I'm worried that these regulations will make ridesharing impossible for drivers who are not full time.

Please, if possible, do not pass the proposed changes.

Cheers,  
Grant
