Dear Sir/Madam

I am bit concern that the Government is now going to penalise us more by charging us poor people who got up to work and earn money for themselves instead going the Centrelink to claim dole .

I think that this is unfair for me and others who are driving for uber and getting paid for the service and then come the power of B to collect or charge more fee etc.

At present we are working for ourselves and doing more for the community by providing a service and not asking Government to pay us as we pay the government enough money for the vehicle Registration and CTP and why you guys want to increase . Do you want me to go on dole No you don't want us to go on dole so please let us free of these extra burden of paying

Thanking you in advance

God bless

B Nair
