Good night Mrs. Parliament,

I would like to tell you how I could impact my life, I would like to tell you how I would do it. When the GST was implemented there was a substantial impact on our incomes however, we have to be aware that the kind of tax is necessary to compete with the taxi industry, however the service that uber is offering does not have an It will be the first time that the company will be able to find a solution to this problem. Please do not implement as many bills as we are not able to pay. I know that many uber drivers work just for a small amount of money however there are many others who really need this job. I enjoy the job but with the implementation of more bills, I will force myself to get out from the business because I cannot pay as much bills. unfortunately, it is not easy and I would not like to leave a job when I do not have many options to find another one.

Thank you so much for your attention.

Best,

## Yeison R
