

Dear Committee Secretary

My Name is Debra Parsons, and I am writing this letter to you in regards to Transport and Other Legislation (Personalised transport reform) Amendment Bill. 2017. I took up driving as an uber Driver to help suplumment my income, I work casual in aged care and have since the day I arrived in Australia. I have a special needs child who isn't ~~intitled~~ alagad for any Benifits I ~~see~~ I pay rent and other bill each week on a casual wage. (which is not by my choice) (goverment again making it harder to serve.) why do the working class again have to be hammered by more expense.
