

SUBMISSION TRANSPORT & OTHER LEGISLATION
AMENDMENT BILL 2017

DEREK ROSBOROUGH

To Whom It May Concern.

The new amendment changes will result in less drivers been around to service the customer.

I myself will not driver for \$6 per hour that is the case now.

What the government should be doing firstly before amending any legislation, is to guarantee a minimum hourly rate for all drivers either Taxi, Uber, limo etc.

To introduce a new red tape fee \$237 vehicle licence, new CTP class and restrict certain states is wrong for people only earning less than \$10 hour.

You do not do this and restrict any other business otherwise we would only have Woolworths & Coles in this country. What is the difference.
Any new changes and I will not be driving.
Regards
