

To the Committee of Transport & Other Legislation
(Personalised Transport Reform) Amendment Bill 2017

As a Uber Driver I would like you to view that
this is a free country to create a business for all to
live a better life.

If 2 restaurants of the same menu are side by side
as a government would you close one of them, NO.
Free enterprise is Australian.

If you need to apply regulation - but fair fees should
apply.

I drive to supplement my super.

If I stop driving then I will have to apply for government
help in the form of a pension (MORE COST ON THE GOVERNMENT)
Regards
