

Dear Sir/Madam, I wish to oppose the
new "Transport and other Legislation (Personalised
transport Reform) Amendment Bill 2017.

REC

07 APR 2017

PWL

I have been driving for about 8 months
and it is good to work for yourself.
I work another job 2 days a week so
that means someone else has more hours.
If I had to pay more to drive I would
have to work more in the other job,
and if I had to stop I would have
to go back to fulltime work but more
important the riders would miss out.
And what I know of the riders I
have had over my time of driving
they will not be happy and that
does not mean they will go back
to using taxis

Thanks for listening
