Dear Sir,

Regarding transport and other legislation  
(Personalised Transport Reform)  
Amendment Bill 2017

I drive with UBER because it is a way for me to supplement my pension and hopefully provide enough income to reduce my dependence on the pension ~~at all~~ and welfare at all.

I was able to embark on this new business because it was affordable to begin with. If additional costs are incurred it will severely affect my ability to continue this occupation. If I have to stop driving with UBER I will probably have to depend on the pension into the foreseeable future.
