

RE: Transport and Other Legislation (Personalised Transport Reform) Amendment Bill 2017

Uber is my sole income and I feel the bill will play a consirable impact on my income and being able to afford being an Uber driver

Ive come from a service industry and due to some personal health issues I've had to decline my job and then started Uber. Thank God for Uber as i could never survive on centrelink payments alone

When I originally signed up with Uber i was in financial turmoil. I live week by week and any additional costs incurred would be disastrous!!!

I desperatly need to maintain my Uber income and any changes to the bill would be detrimental to my income

I pray and hope you empathise with people like myself, please do not make any changes to the bill that will affect my income

thanks for listening. kindest regards. George
