

RE: Transport and Other Legislation (Personalised Transport Reform) Amendment Bill 2017

As i have family and 2 dependent and i have morgage to pay beside paying Childcare for my son and where i am the only person earning income for the family and ever penny counts in my daily life if i have to pay the extra 250 +150 this will affect me in my morgage replayment and also on my weekly household expense where i could use the money to payoff my morgage and also my cars repayment.

I was looking for a second job for almost 4years before i got UBER and this is helping me with all my small bills and my kids toys along with some weekly fuel expense. Since i bought new car for doing ride sharing for repayment this really helps as paying off my car repayment.

I wouldt be able to have the quality time with my family as this will push me to work more and stay away from home alot which is against health and safety.

Currently i drive only for 10 to 15 hours to be able to make some sufficent funds to be able to pay off my car repayment and help with my childs daily needs.

I sincerely hope you will consider drivers like myself in your decision making. I would love to see regulations that benefit Queenslanders

Thanks for your time, Hafeezullah Nazari
