

RE: Transport and Other Legislation (Personalised Transport Reform) Amendment Bill 2017

Dearest Lawmakers and member of QLD Parliament

i was once an avid fan of the taxi industry as i have worked in Hospitality for a number of years, and because of this i have used the taxi industry a number of times, however when my partner and i have lost both 2 ipads and a bag containing our belongings including our international and Australian passport, and had no help in the taxi industry in recovering this from one of there taxi, we have lost fate to it.

my partner however lost her phone in an uber and is promptly returned without any drama, my point is.... uber is an overall better service not that beacuse we are Bias but because we have personally experienced it in a customer point of you... and this alone gets my vote everyday, every citizens of queensland prior in experiencing uber will tell you the same stories and we are your voters as well,

so please dont make it harder for Queenslander to avail a simple pleasures of life of not hgaving a worry each time they chose Uber as a ride home... please make our life your constituents a simple but happy one by giving us this simple and yet efficient way of alternative to our way home or to work...

help us make Queensland the Best state in austarlia by allowing us this simple but effective way of life....thanks

by limiting us in the capacity to give our Uber drivers to drive us home, you are denying us of a simple but happy way of life... Support Uber support your constituents by allowing usUber to be effective in what they do best, to serve there communities with happiness in there minds thanks

do not pass this bill people who rides Limos to parliament dont have our ordinary citizens concerns in there minds so please have a heart and abolished all this Beauroucrtatic suggesstion and stay true to what the people want... a choice an Uber choice

we are all in this together so work together as a team, to make our citizens and community a wonderful and happy place... more power to the Queensland Government and more power to the people of Queensland by choice

tony
