---

We would like to submit our ideas regarding Organ Donars.  
Our family thinks everyone should automatically be on the list.

If there comes a time that the organs can be used - the family is asked if this is OK. They still have the right to say that it isn't OK for the organ donation to take place, but instead of asking only the few donars on the official organ donar list, you ask everyone.

Hope this makes sense - to us it's a simple solution.

Kind regards

Jan Martin and Family
