Subject: Wild Rivers Act
Attachments: Wild Rivers submission (June 2014) - Web.doc

To whom it may concern,

Please see attached email regarding the Government's intended action to repeal the Wild Rivers Act.

Political governments are only in power for short periods of time for short sighted gains. Please consider that the long term future of the Wild Rivers is at stake for the rare and endangered fauna and flora species that exist in this region and for the species that have not yet been discovered and of future generations that benefit from protecting these last places on earth.

Regards,
Simone Bambach
