STATE DEVELOPMENT
INFRASTRUCTURE AND
INDUSTRY COMMITTEE

FROM

Submission No. 59
EUGENIE NAVARRE

RECEIVED

1.2 OCT 2012

STATE DEVELOPMENT, INFRASTRUCTURE
AND INDUSTRY COMMITTEE

9/10/2012

To Jeff Sealey & all Members of the
Committee

Your forthcoming legislation changes
to the PLANNING & ENVIRONMENT COURT
NEED

EXTREMELY CAREFUL CONSIDERATION

Re changes to the losing participant
paying the other parties charges will
almost close down this avenue of
legal challenge — Neither party
except Big Business & Government can
take such a gamble! As the law currently
stands the judge already has discretionary
powers & if one party, without due
reason takes too much of the courts time
etc.

If this ruling comes legislation
it will seriously affect all areas of
Society from the conservation movement &
landholders re coal seam & coal disputes,
Small business people etc

3

If it becomes law it will
as the public realize the consequences
cause even more 'flak' for your
government — It will also
almost certainly, be rescinded with
a new government. To put it
straight, its legally draconian!
