I, as a Queensland primary producer, strongly support the changes you have proposed with this Bill.

My production type is Graingrower

The land tenure on my property is Freehold

I have Remnant Vegetation found on my property Yes

I have High Value Regrowth Vegetation found on my property Yes

My main issue/s with the current vegetation management framework is:
Overly complex process to obtain a development application/permit for vegetation management
Incorrect mapping
Overregulation of activities that are routine and essential to the management of my property (for example clearing for fence lines, firebreaks, roads, or infrastructure)
