I, as a Queensland primary producer,	strongly support the changes you have proposed with this Bill.
My production type is	Beef Cattle Grazing and Feedlot
The land tenure on my property is	Freehold
I have Remnant Vegetation found on my property	No
I have High Value Regrowth Vegetation found on my property	Yes
My main issue/s with the current vegetation management framework is:	Incorrect mapping Overregulation of activities that are routine and essential to the management of my property (for example clearing for fence lines, firebreaks, roads, or infrastructure) Over-administration or administration of vegetation management by inexperienced departmental staff
If this Bill is passed it will mean the following for my property in terms of improved productive, environmental and/or social aspects:	Common sense will prevail.
