support the changes you have proposed, however, have suggested some further recommendations with the Bill.

**My production type is** beef cattle

**The land tenure on my property is** Leasehold

**I have Remnant Vegetation found on my property** Yes

**I have High Value Regrowth Vegetation found on my property** Unsure

**My main issue/s with the current vegetation management framework is:**  
Overly complex process to obtain a development application/permit for vegetation management  
The length of time taken to obtain a development approval/permit for vegetation management  
The length of time to utilise a permit/development approval is too short (currently 5 years) and doesn't allow for long-term property planning  
Incorrect mapping  
Overregulation of activities that are routine and essential to the management of my property (for example clearing for fence lines, firebreaks, roads, or infrastructure)  
Over-administration or administration of vegetation management by inexperienced departmental staff
