

<b>Submission Date</b>	2013-04-08 22:11:51
<b>Date</b>	04-09-2013
<b>My production type is</b>	Cattle breeding and fattening
<b>The land tenure on my property is</b>	Freehold and Sunwater licence agreement flood margin grazing
<b>I have Remnant Vegetation found on my property</b>	Yes
<b>I have High Value Regrowth Vegetation found on my property</b>	Yes
<b>My main issue/s with the current vegetation management framework is:</b>	Overly complex process to obtain a development application/permit for vegetation management The length of time taken to obtain a development approval/permit for vegetation management The length of time to utilise a permit/development approval is too short (currently 5 years) and doesn't allow for long-term property planning Incorrect mapping Overregulation of activities that are routine and essential to the management of my property (for example clearing for fence lines, firebreaks, roads, or infrastructure) Over-administration or administration of vegetation management by inexperienced departmental staff
