My production type is Beef cattle

The land tenure on my property is Freehold&GHPL

I have Remnant Vegetation found on my property Yes

I have High Value Regrowth Vegetation found on my property Yes

My main issue/s with the current vegetation management framework is:
Overly complex process to obtain a development application/permit for vegetation management
Incorrect mapping
Over-administration or administration of vegetation management by inexperienced departmental staff

If this Bill is passed it will mean the following for my property in terms of improved productive, environmental and/or social aspects:
Assurance for long term productivity

If I could propose further changes to the legislation these changes would include:
Common sence from departments of the needs of primary producers.
