Submitter Comments:

I would like to see a required registration of e scooters and e bike that are of a certain power eg able to go faster than 15km hour. This can be free through local RTA and be similar to registering a boat where vinyl numbers can be applied to the panels of e-bikes or along the steering shaft of e-scooters for identification purposes. Bikes and scooters seen without this can be freely pulled up by police to investigate further or even withhold till the person is identified. Fines apply and also makes it easier for people to be identified if they are doing the incorrect things.
