**Submitter Comments:**

I would like the e-bikes to be registered vehicles as they are used on roads and fitted with registration plates. Users to complete need to register to ride the e-bikes when they are on roads, complete on line training and have photo identification of compliance that they are registered. All riders made aware that if they do not comply with the regulation, the property will be confiscated. Parents of under 18 to also be accountable on the correct use of the bikes and expectations. The bikes should be allowed however pedestrians need to be safe and road rules such as correct side of road and speed restriction compliance are essential
