**Submitter Comments:**

I live in Mudgeeraba, e-bikes are very common among the youth in the area to get from semi rural areas to town. If they were being used sensibly then it would be ok. However, I'm yet to witness an e-bike not causing a distribution. My 5 year old boy got knocked to the ground while walking on the footpath outside his school by a young adult being immature. These bikes are going to get more common and there will be more injuries & deaths. Especially as it is not regulated appropriately.
