Submitter Comments:

As a retired Queensland commissioned police officer, father, grandfather and citizen I submit the following: E bikes and E scooters and e skateboards are being ridden on the roads like trail motorcycles and mini motorcycles. The latter require licencing, registration and age limits. This is the dilemma. At the very least there should be an age restriction. Primary school children do not have the road sense at 30 plus kilometres per hour. We also do not have in Australia bikeways and paths like European countries to accommodate. No doubt you will have many submissions from emergency medical staff which should be listened to. Legislate, regulate and educate now.
