Submitter Comments:

I have observed riders of e-bikes flaunting the road rules - going faster than a car at 60kph, doing monos for long distances on the roadway, riding 2 and 3 on the one bike. Also, going around roundabouts with one foot on the road as they go around. At Palm Beach Currumbin High School, they are zooming around , taking risks with pedestrians at school finish time. On the oceanways, where pedestrians are, the e-bike riders are doing ridiculous speeds. The e-bike riders take unnecessary risks in traffic.
