**Submitter Comments:**

I love that we have e bikes and the additional greener transport options that these bikes offer our community are fantastic. I believe these bikes should be pedal assist only, a governed speed limit and only be able to carry 1 adult (or with child carrier). Otherwise they need to be registered and used like a motorbike with the same laws that apply to these vehicles. We desperately need more bike lanes to provide safer and wider spaces for the increasing number of e bikes. I see so many "near misses" and "near death" experiences everyday. Head injuries and physical injuries cost us so much...please invest in preventing these long-term costs and tragedies. Please save our young people from the risk of these lifelong injuries or the harm they may do to others that they do not yet have the capacity to understand.
