Submitter Comments:

People under the age of 17 are riding e-vehicles on public thoroughfares. Why is this allowed when by law, no one is allowed to drive a car or ride a motorbike (whether electric or fuel powered) unless 17 or older. These young people do not have the maturity or common-sense to be in charge of these powerful vehicles. I have had 2 near misses with teenagers on e-bikes while riding my pedal powered bike on a path. I no longer feel safe cycling on the paths in my neighbourhood. These vehicles are dangerous in the hands of children and use by them should be banned. They don't even have to pedal and we have an epidemic of children with obesity.and no
