Submitter Comments:

E-bikes are causing a lot of angst in our Gold Coast community. Kids are riding them on the roads at speeds faster than the cars and often with 2 or 3 on board and no helmets. These are not bicycles with motor assist they are in many cases electric motorbikes. You cannot ride a motorcycle on a public road without a drivers licence, registration and 3rd party insurance. If the bike has an accelerator it should be classed as a motorcycle and require a drivers licence, registration and insurance and helmets must be worn.
