Submitter Comments:

Our Company has been involved in e Scooters & e Bikes for over 7 years now. We were the first store in Australia to sell e Scooters back in 2017. We have gained extensive experience in both and are still involved in selling e Bikes & e wheel chairs . Our City store is located at 167 Elizabeth St. ,right next to the Bike Track , so we do have first hand view of what is happening with this issue .
Submission 1. That Rental e Scooters be restricted to 15 klm per hour [not 25] , [like other some other Cities] , as I believe these e Scooters renters do not have the riding skills needed for safe riding , as well as more GPS fencing so as to minimise the injury to both riders & pedestrians .
Submission 2. That e Scooters be returned to a " nest " designated for them by Council , and not left laying around and become a hazard to pedestrians and the visually impaired .
Submission 3. That the Law for the wearing of Helmets , Doubling , Riding on the road etc. be enforced by Police and Council Offices , as opposed to now , where they seem to be left to do what ever they want . Thank You for this Opportunity .
