**Submitter Comments:**

On a regular basis driving around the Gold Coast , I have witnessed e-scooter drivers with or without a helmet and a mask driving dangerously through traffic lanes whilst on the phone .They are an accident waiting to happen and there is no way to their identity .The e-bikes and e-scooters need to be registered at a minimal cost . Then there would be accountability and consequences for their dangerous erratic driving . This isn't for revenue raising but for everyone's safety .There should be designated riding areas .There should be rider education and a form of testing and rider licence .
