Submitter Comments:

The amount of young kids riding at the same speed or faster on the roads is simply an astonishingly dangerous issue that needs solving. These kids are riding unregistered road transportation and have no experience on roads surrounded by registered vehicles and licensed drivers. They may think they know what they are doing but riding diagonally across traffic lights through red lights at dusk, forcing vehicles to slow down to avoid accidents and weaving inbetween traffic that is travelling 80km/h is a clear indication things have gone way too far on our roads. Sadly it seems more deaths need to occur before change happens.
