Submitter Comments:

E- bikes and E-scooters have become very common in my neighbourhood. They are ridden on pathways and roads, often by young and obviously unlicensed riders with frequently 2 or 3 occupants on the device. I have been overtaken numerous times by children in school uniform riding along both Reedy Creek Rd and Christine Ave on E-mobility devices. The riders were going over 60km/hr. The bikes need to be illegal, or registered so the rider is able to be identified and holds liability insurance. The rider also needs to be licensed. These rules also need to be enforced.
