Submitter Comments:

someone is going to be killed or maimed very shortly, unless you people in power do something right now, please dont have a dozen enquiries into this, after someone has died or is injured, mark my words ,it is going to happen while on your watch, you must act and do it now. we have just returned from the MANLY PROMENADE IN NSW, a beautiful SUNDAY , thousands of people out and about enjoying the area, not one problem with E-BIKES or E-SCOOTERS.Please talk to someone in charge down there, find out how are they controlling these out of control motorised vehicles. These people, in most cases children of varying age brackets, not wearing helmuts, speeding past cars at higher speeds than the cars are permitted, some riding with one wheel in the air with a pillion passenger on the back. I dont know what the solution is, you are in power to protect us citizens.Maybe you have to register these vehicles, or limit their speeds somehow. They are out of control. please act on this, someone is going to be killed soon.Sorry to be so Dramatic but you have act NOW.
