Submitter Comments:

These machines should not be allowed on footpaths as they cannot be heard by the elderly exiting shops,etc.the speed limit is not governed by the operators,causing unlimited injuries at accidents,which in turn costs a fortune on the health system,helmets lay on streets/footpaths/gutters,because no one wears them.i do not know of registration/insurance coverage on these machines,the owners of these businesses don't seem to respect the safety of the community. Thank You.
