Submitter Comments:

My husband and I are 66 years old and we both ride e-bikes. We only ride on the road when it is safe to do so otherwise we ride on the bike paths and side walks so as not to be run over by vehicles. Our bikes have been factory set so they dont go over 25 kms per hour. It should be law that the bikes cant be modified to make them go faster. We should be able to ride freely and not have restrictions imposed due to others who have had their bikes and scooters modified and ride dangerously. People should be responsible for their own actions.
