Submitter Comments:

Of the many things to consider are the following. All bikes etc must be registered as they use roads etc , all riders must wear helmets, all riders must be 16 years or older. They must obey all road rules, rules re L plates, P plates should be introduced. All bikes etc must be inspected at schools together with knowledge of road rules. Special respect to pedestrians must be observed at all times. As these devices can obtain high speeds drivers should be regulated the same as motorcycle riders are, they should pass obligatory tests before they can ride these machines. People's lives are at risk and we should not be bending to the will of these people. This should be done Australia wide so that the same rules apply everywhere. It is time for common sense to be enforced.
