Submitter Comments:

I wish for better rules and understanding of E bike use as there seems to be no legal requirement when riding them . As we live on a very straight road and has not many houses the E bike rider think they can do any speed and do not abide by any rules . Riding on any side of the road and without helmets ! The children riding these bike are as young as about 9 years old doing 50kms !! They are double dinking. Not aware of the road rules as they don't need to do any license or training ! We have kangaroos and people coming out of driveways and they aren't even aware that there are other vehicles,people or wildlife as they usually have head phones on as well ! We have to get licenses to drive but they can be in possession of a vehicle that can travel at fast speeds without learning the road rules !
