Submitter Comments:

E-scooter rental have been removed from our area which is great as they were a hazard and made our walkways look untidy Unfortunately our coastal walkways are now affected by electric bikes . These bike riders destroy turfed areas ride on walkways at 60k per hour. When riding on our roadways they are free to do what they want as our police force turn a blind eye and never pull them over Why ?? I assume it is they can give false names and bikes have no identification. This has to change police have to be given the power to confiscate bikes from offenders
