Submitter Comments:

E bikes are a great way to get around locally. There so much traffic, not enough local parking, it's convenient for accessing the beach and local shops and restaurants. Many people use them respectfully even on pavements with people walking taking priority, not using excessive speed. Roads are busy, not enough cycle paths. The sorens and younger kids are ruining it. Have speed control limits, have it linked to driver's license. Maybe a license /proper course for those who don't have a car or motorbike licence and a points system. Or linked to parents somehow to also hold them responsible
